STEALTH™ FLOOR SHIELD

The Stealth™ Floor Shield from Heatshield Products is a thermal-barrier material engineered to keep drivers cooler and safer in street cars, race cars, off-road vehicles and just about any type of vehicle.

At the core of Stealth Floor Shield is a specially formulated insulation called Stealth Felt that blocks up to 90% of heat and is also being fire-resistant. Not only will the driver stay cooler, but the insulation can provide a precious extra few moments during a fire situation for the driver to escape. Encased in a special carbon-fiber outer layer, Stealth Floor Shield is only 1/8-inch thick and 45% lighter than previous floor shield products. It is capable of handling a constant 900°F of direct contact heat. Two different attachment methods are available. Traditional grommets like the older generation floor heat shields and the patented MagnaMount™ technology. The high temperature insulation shields the magnets so they are protected from excessive heat, and hold your floor heat shield in place.

In racing applications, Stealth™ Floor Shield has additional value. Between having a hot foot from a griddle-like toe panel and transmission hump, to sweating worse than a group of actors re-enacting scenes from Cool Hand Luke, it can get pretty hot inside a racecar. That makes it hard to focus on the details of racing and contributes to fatigue. Stealth Floor Shield reduces this strain on the driver.

In a street or off-road application, Stealth™ Floor Shield will keep drivers and passengers cooler without unnecessary vehicle weight or bulk that will affect carpet installation. Air conditioning will be able to perform better and, simply stated, everyone will be able to keep their cool more easily.

NEW VS OLD

FEATURES:

- **500°F** CONTINUOUS **800°F** INTERMITTENT
- Reduces floorboard temps up to 70%
- Half the weight, half the thickness vs traditional mats
- Heavy duty carbon fiber vinyl
- Made in the USA

PART NO.	DESCRIPTION
914002	8 in x 12 in w/ grommets
914005	12 in x 24 in w/ grommets
914008	18 in x 24 in w/ grommets
914011	18 in x 36 in w/ grommets
914015	24 in x 36 in w/ grommets
914102	8 in x 12 in w/ magnets
914105	12 in x 24 in w/ magnets
914108	18 in x 24 in w/ magnets
914111	18 in x 36 in w/ magnets
